MANAGEMENT DISCUSSION & ANALYSIS REPORT

1. OVERVIEW

The Management Discussion and Analysis Report (MDA) is an integrated part of Company's annual financial statements. The purpose of the MDA is to provide a narrative explanation, through the eyes of management, of how the Company has performed in the past, its financial condition, and its future prospects. This report contains a description of the year gone by and some of the key factors that influenced the business of the Company during the year, as well as a fair and unbiased overview of the Company's past, present, and future. There are forward looking statements mentioned in this report which may involve risks and uncertainties, including but not limited to the risk inherent to the Company's growth strategy, change in regulatory norms, economic conditions and other incidental factors. Actual results could differ materially from those expressed or implied.

2. GLOBAL ECONOMY

In 2016, the global economic activity remained sluggish leading to wide ranging implications on the banking sector and financial markets. As per the International Monetary Fund (January 2017), World GDP growth moderated to 3.1% in 2016 from 3.3% in 2015. The primary reasons are largely to the turbulence in the world financial market due to major setbacks such as Brexit, the unexpected election of Donald Trump, China's slowdown, low oil prices and overall weakness in the economies of Japan, US and Europe. In India, the demonetisation exercise was unforeseen and unexpected, whereby the government replaced notes equivalent to Rs. 15.44 trillion in circulation with the new notes.

However, towards the end of the FY17, global economic activity picked up and conditions improved in commodity exporting countries and emerging markets. Even as some deflation risks linger in certain parts of the world, inflation picked up in most advanced economies. In India, macro-economic conditions continued to be on a stable footing with slowing inflation, Current Account Deficits remaining in control and the central government achieving its Fiscal Deficit/GDP target of 3.5% for FY17 and targeting a lower deficit of 3.2% for FY18.

With this trend, the world economy is expected to pick up steam in CY 2017 and grow by 3.4%, this time piggybacking on previously flat advanced economies. This is expected to be supplemented by the projected policy stimulus of the new US administration and its global consequences. However, Economic activities in both advanced economies and emerging markets and developing economies is forecast to accelerate in 2017 and 2018.

3. INDIAN ECONOMY

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). The year's Economic Survey highlighted the various challenges that the Indian Economy has faced ranging from a set of tumultuous international developments that comprised of Brexit, political changes in advanced economies, and two radical domestic policy actions namely the GST and demonetisation. It seems that the Indian Economy is turning to be more resilient to the changes both at the international and the global front.

This year has been marked by several historic economic policy developments. On the domestic side, a constitutional amendment paved the way for the long-awaited and transformational Goods and Services Tax (GST) which will create a common Indian market, improve tax compliance, boost investment and growth and improve governance while

demonetisation of the large currency notes on the other hand brought a striking shift towards the way the economy prepared to move towards a cashless, transparent and corruption-free regime. Demonetisation is forecasted to have a short term cost in the form of slow growth but has potential for long term benefits. This could boost economic efficiency, foster a clean and digitalized economy in the long run and reduce corruption. The Government continued with its economic reforms agenda and took a large number of measures including the overhauling of the bankruptcy laws, codified the institutional arrangements on monetary policy with the Reserve Bank of India (RBI), and solidifying the legal basis for Aadhaar in order to reap benefits of Jandhan Accounts and promotion of a digital economy.

On the international front, the Brexit and the US elections herald a tectonic shift for the global, and even the Indian, economy. However, the Indian Economy has continued to consolidate the gains achieved in restoring macroeconomic stability. India's gross domestic product (GDP) grew by 7 per cent year-on-year in October-December 2016 quarter, which is the strongest among G-20 countries, as per Organisation for Economic Co-operation and Development (OECD) Economic Survey of India, 2017.

According to IMF World Economic Outlook Update (January 2017), Indian economy is expected to grow at 7.2 per cent during FY 2016-17 and further accelerate to 7.7 per cent during FY 2017-18. Moody's has affirmed the Government of India's Baa3 rating with a positive outlook stating that the reforms by the government will enable the country perform better compared to its peers over the medium term.

The Indian economy has grown quite impressively this fiscal to consolidate India's position as the fastest growing economy. The Economic Survey projects there is a strong likelihood that Indian economy may recover back to a growth of 6¾ per cent to 7½ per

cent in 2017-18. Your Company sees a good opportunity for improvement of its performance in the near term.

4. INDUSTRY STRUCTURE

Non-banking finance companies (NBFCs) form a critical part of the Indian financial system. They play an important role in nation building and financial inclusion by complementing the banking sector in providing credit to the unbanked segments of society, especially to the micro, small and medium enterprises (MSMEs), which form the cradle of entrepreneurship and innovation.

NBFCs have performed consistently over the last ten years. India Ratings expects NBFCs to account for over 17% of the total credit in the country by FY2019, compared to 13.1% at the end of the FY2015 and 9.4% in the FY2006. Until some years ago, NBFCs were a small part of the financial services business with a small resource base. Today, the equity of leading NBFCs is comparable with or larger than many mid-sized banks. The combined market capitalisation of the top 10 NBFCs is now twice that of mid and small-sized public sector banks. **(source)**

The success of NBFCs can be clearly attributed to better product lines, strong risk management capabilities to check and control bad debts, lower cost due to lean and focused business models, wider and effective reach and better understanding of their customer segments. Not only have they shown success in their traditional area but they have also managed to build substantial assets under management (AUM) in the small enterprise finance, personal loan and housing finance sector which have been the bread and butter for retail banks. In 5 years, NBFCs have doubled their market share in SME loans and wholesale finance and the NBFCs assets grew at more than twice India's GDP last fiscal.

The Reserve Bank of India has over the last few years revised the regulatory framework for NBFCs which broadly focuses on strengthening the structural profile of the NBFC sector. The regulatory focus is more on safeguarding depositors' money and regulating NBFCs which have increased their asset-size over time and gained systemic importance.

For India's non-banking financial companies (NBFCs), the year was characterised by robust growth. According to the Reserve Bank of India (RBI) Financial Stability Report (FSR) released earlier this year, NBFC loans expanded 16.6% in the year, twice as fast as the 8.8% credit growth across the banking sector on an aggregate level. The aggregate balance sheet of the NBFC sector expanded 15.5% in fiscal 2016 in comparison to 15.7% from the previous year.

5. OUTLOOK OF NBFCs

The financial services industry is highly interrelated to the overall economic growth and has a large driver of this growth. The improving GDP growth path is expected to further derive the financial service industry. The sector has been dynamically evolving over period of time and has been witnessing constant regulatory changes. RBI has recognized the impact that the NBFCs have on the society at large and have been constantly implementing new policies for tighter controls and providing new avenues for growth.

The Company intends to continue focusing on capital market activities including trading in securities and carrying of job work activities.

The Company continuously explores the possibilities of expansion and will make the necessary investments when attractive opportunities arise.

6. OPPORTUNITIES & THREATS

The Government is committed to encourage the healthy growth of Capital Market for development of the Economy. Steps by RBI to stabilize the exchange

rate by reducing liquidity support to the banking system will create a challenging environment for investments.

Over the medium term, however, a supportive operating environment and declining interest rate regime are factors which could support NBFCs ability to improve profitability and shareholder returns.

Various factors are posing constant threats and high vitality in the capital market. To reduce the risk it is important to diversify the portfolio. Mutual funds investment helps to reduce risk through diversification and professional management.

Annexure B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **RSD Finance Limited** ('the Company') as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and,

both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that

receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **RSD Finance Limited** (hereinafter referred to as "the Holding Company") as of 31 March 2017 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the

degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over

Financial Reporting issued by the Institute of Chartered Accountants of India.
